

Cars at Home

TASK A

1. For each member of your class find out how many cars their household owns. Don't forget to include your own household.
2. Complete the tally chart below as you are collecting the data.

Cars in household	Tally	Total
0 cars		
1 car		
2 cars		
3 cars		
4 cars		
More than 4 cars		

3. Plot a bar chart to show your results.

4. Write two sentences to describe what you have found out.
