

South African CensusAtSchool

South Africa is intending to run CensusAtSchool later this year. They will need to change some of the questions to reflect their own needs.

Look at the forms we used and decide which questions can stay the same and which will have to be changed. For those you decide to change say why they need changing and then using information from either the following websites or resources in your library and classroom decide what you are going to alter them to.

Our current forms can be found on the website <http://www.censusatschool.ntu.ac.uk>
Or by clicking [HERE](#) for the Key Stage 2 form & [HERE](#) for the Key Stage 3&4 form (Provided you are connected to the Internet and have this form up on your computer.)

Websites on South Africa include:
