

Just how old are you?

How old are you? 15000 days? 80000 hours? 150 million seconds?

TASK A

Use each of these different units in turn, write down a guess for your age then work it out. You may well need a calculator to help you.

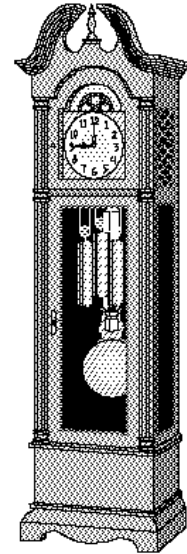

1. Years
2. Months
3. Days
4. Hours
5. Minutes
6. Seconds

Remember:

- | | | |
|----------|---|------------|
| 1 year | = | 12 months |
| 1 year | = | 365 days |
| 1 day | = | 24 hours |
| 1 hour | = | 60 minutes |
| 1 minute | = | 60 seconds |

TASK B

1. Try finding out other people's ages in these different units - your Dad, Grandma, Dog, Goldfish, etc.
2. How old is your oldest living relation?
3. What year were they born in?
4. What is their age in months?
5. How old is your youngest living relation?
6. What is their age in days?
